Ongole, Andhra Pradesh

SUMMARY

I am a passionate Electronics and Communication Engineer, known for my enthusiasm and adaptability. I seek to apply my skills in a dynamic environment where I can contribute meaningfully to the team's success and further my professional growth

EDUCATION

Bachelor of Technology in ECE

Kalasalingam University

08/2021 - 05/2025 Anand Nagar, Krishnankoil, Tamilnadu

+1 & +2 in MPC

Sri Chaitanya Junior College

07/2019 - 05/2021 Ongole, Andhra Pradesh

SSC

Bhashyam High School

04/2019 - 04/2019 Ongole, Andhra Pradesh

CERTIFICATIONS

StartUp Pitch Funding-Deck

Indo-Norway Workshop on Communication & Control Systems
Participated in a workshop focused on communication and control systems

Hackathon based on Embedded Systems
Participated in a hackathon focused on embedded systems

Hands-on Workshop on Immersive Technologies & it's Applications
Participated in a hands-on workshop focused on immersive technologies and their applications

Certificate of Appreciation
NPTEL

Internship on Data Analysis with Python
Main Flow Services and Technologies

STRENGTHS

Leadership Skills
Demonstrated leadership skills through involvement in extracurricular activities and volunteer work

KEY ACHIEVEMENT

IoT Systems Development
Successfully developed and implemented multiple IoT-based systems that address real-world problems

SKILLS

Arduino | IoT | Python | Sensors | Actuators

PROJECTS

IoT based Smart Food Management System

12/2022 - 07/2024

IoT based Smart Food Management System

- Developed and implemented a system using Arduino UNO, Sensors and Arduino IDE software

IoT based Smart Waste Management System

09/2023 - 11/2023

IoT based Smart Waste Management System

- Developed and implemented a system using Arduino UNO, Sensors and Arduino IDE software

IoT based Smart Street Light Monitoring System

08/2022 - 12/2022

IoT based Smart Street Light Monitoring System

- Developed and implemented a system using Arduino UNO, Sensors and Arduino IDE software

Sleep Disorder Detection System using Smart Phone Sensors

12/2024 - 05/2025

A portable system designed to detect sleep disorders, with the Raspberry Pi serving as the central processing unit.
